Evaluation:

An average course score will be determined using a weighted average of the following:

<table>
<thead>
<tr>
<th>Component</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Homework</td>
<td>15%</td>
</tr>
<tr>
<td>Merchandising Project</td>
<td>30%</td>

Students electing to take this course Pass/No Pass will be expected to perform satisfactorily, attend class regularly, and earn an average course score of 73% or better to receive a Pass grade for the course.

**Homework**

Homework will be assigned to provide practice in solving problems related to the course material. Homework assignments will generally be announced one week prior to their due date. Assignments will generally be posted in MS Word format on Blackboard. Students are expected to: 1) download the homework assignment, 2) type their answers in the file (leaving the questions in the file as well) or follow other given instructions, and 3) print the completed assignment to hand in on the due date. Homework assignments are required to be typed or completed on the computer, unless otherwise noted. Print homework assignments on a high quality printed with dark ink so that they are easily read (if you make use of color in text or graphs, be sure to print in color). Students not attending class on the homework’s due date (for any reason) are required to submit their homework no later than 5:00 pm on the day prior to the homework’s due date. In this case, assignments must be submitted by e-mail or hardcopy delivered directly to the instructor. **Homework assignments are due at the beginning of class (1:00 pm) on the assignment’s due date. Late assignments will be reduced by 20%. Homework assignments more than one day late will not receive credit.**

**Merchandising Project**

A merchandising project that demonstrates an integrated understanding and use of futures, futures spreads, basis, and the business of running a grain elevator will be completed by each student. Each student will be provided with a case elevator and will need to make business decisions. Evaluation of the merchandising project will be made in several steps. Details associated with the merchandising project and due dates will be announced in class and via Blackboard.
Class Participation

Class participation includes regular attendance at all class meetings, participation in class discussions, and active participation and contributions to any group projects. Instructor evaluation of class participation will include quantitative assessments of attendance at any/all regular class meetings or other class activities and qualitative assessments of in-class participation in group discussions (e.g., quality and quantity of questions, answers, etc. and extension of course topics to real-world applications). Evaluation may also come from any peer-assessment of individual participation in group projects.

Regular attendance and participation is expected and encouraged; therefore, attendance quizzes may be given on any day. As in any class, there tends to be a direct correlation between attendance and academic performance. Students are responsible for knowing the material presented during the class meeting, including the class discussions and responses to questions raised in the class, even in the event of absence. Any student who cannot attend a class meeting is expected to obtain the handouts, assignments, assignments, and slides from Blackboard (or by contacting the instructor) and obtain notes from fellow classmates. If a student is not going to be able to attend class, they must send me an email before class starts that they will not be attending.

Quizzes

Four announced quizzes will be given throughout the semester. The quizzes will be 30-40 minutes in length, and include a variety of question formats (e.g., multiple choice, true/false, short answer, problems and essays). The quizzes will cover cumulative material up to that date. Additional unannounced quizzes may occur throughout the semester. Make-up quizzes must be arranged before the quiz date and absences must be verified with appropriate documentation (i.e., doctor’s note, University documentation, etc.). Any make-up quiz may include both written and oral components, and will not be restricted to the 30-40 minute length.

Exams

Two exams and one final exam will be given. If an exam will be missed due to a planned absence (e.g., university sponsored event) and documentation of the absence provided to the instructor at least one week before the exam, the exam will be able to be made up. Failure to provide documentation of a scheduled absence at least one week prior to the exam date or an absence for any other reason will result in a score of zero on the missed exam.

The final exam is cumulative and will cover all material from AECN 399. All students (including graduating seniors) are required to take the final exam at the time scheduled by the University.
**Grading Policy**

Graded homework, quizzes, exams, and projects will generally be returned within one week of the assignment’s due date. If a student in concerned about grading accuracy, the issue must be addressed with the instructor within one week after the assignment or quiz is returned to the student.

**Important Notices**

- AECN 325, taken at UNL, is a required prerequisite for AECN 399. It is anticipated that students who have not taken AECN 325 will have difficulty in this course, and should drop this course and take it after AECN 325.
- Academic dishonesty is a serious offense and may be punished by failure on the exam, paper, or project, and/or failure in the course. For more information, refer to the academic honesty policy in Section 4.2 of the Student Code of Conduct in the 2011-2012 Undergraduate Bulletin or at [http://stuafs.unl.edu/ja/code/three.shtml](http://stuafs.unl.edu/ja/code/three.shtml).
- Students with disabilities are encouraged to contact the instructor for a confidential discussion of their individual needs for academic accommodation. It is the policy of the University of Nebraska-Lincoln to provide flexible and individualized accommodation to students with documented disabilities that may affect their ability to fully participate in course activities or to meet course requirements. To receive accommodation services, students must be registered with the Services for Students with Disabilities (SSD) office, 132 Canfield Administration, 472-3787 voice or TTY.
