Professor Taro Mieno in Department of Agricultural Economics at the University of Nebraska-Lincoln is seeking M.S. or Ph.D. candidates with an interest in water economics for an assistantship position. Opportunities exist to leverage his close relationship with the Daugherty Water for Food Global Institute, which plays a leading role in water research globally. Assistantships include a competitive stipend, plus tuition waiver and the majority of health insurance costs.

Research topic areas may include:
- The impact analysis of agricultural policies (ex. crop insurance) on irrigation
- Econometric analysis of real-time irrigation decision making
- Climate change impacts on groundwater availability
- Economic and hydrological trade-offs of groundwater market designs

For more information, contact Professor Mieno at tmieno2@unl.edu

ADMISSION REQUIREMENTS

- Undergraduate degree in agricultural economics, economics or related field
- Coursework in: calculus, statistics, intermediate macroeconomics and intermediate microeconomics
- GRE is not required but is highly recommended

Deadline: January 15
Apply at: agecon.unl.edu/graduate

ABOUT THE DEPARTMENT

Our graduate programs give students a solid foundation in economics theory, mathematics and statistics, and applied economics in agriculture, food systems, and natural resources. Our graduates are well-prepared for employment in academia, industry, NGOs, and the public sector.

The University of Nebraska-Lincoln is a Big Ten, R1 research institution. As a land-grant university, agricultural programs are a key part of our mission.
