RISK MANAGEMENT ASSISTANTSHIP

Professor Cory Walters in Department of Agricultural Economics at the University of Nebraska-Lincoln is seeking M.S. candidates for an assistantship position.

Possible research topics include:
- Using futures markets to manage risk
- Using crop insurance to manage risk
- Evaluating the role of market forces (yield risk) in decision making under risk

Assistantships include a competitive stipend, plus tuition waiver and the majority of health insurance costs.

For more information, contact Professor Walters at cwalters7@unl.edu

ADMISSION REQUIREMENTS

- Undergraduate degree in agricultural economics, economics or related field
- Coursework in: calculus, statistics, intermediate macroeconomics and intermediate microeconomics
- GRE is not required but is highly recommended

**Deadline:** January 15

**Apply at:** agecon.unl.edu/graduate

ABOUT THE DEPARTMENT

Our graduate programs give students a solid foundation in economics theory, mathematics and statistics, and applied economics in agriculture, food systems, and natural resources. Our graduates are well-prepared for employment in academia, industry, NGOs, and the public sector.

The University of Nebraska-Lincoln is a Big Ten, R1 research institution. As a land-grant university, agricultural programs are a key part of our mission.
